WORKING EXPERIENCE

Visual Image Indonesia, Jakarta

Dec 2024 – Dec 2025

Freelance Wordpress Developer | visualimageindonesia.com

- Optimized the main landing page for responsiveness by modifying the theme/template and utilizing custom CSS, ensuring display accuracy on all devices.
- Developed and implemented a new article/news page using WordPress CMS, enhancing content management and publication workflow.
- Established a structured event management system with dynamic categorization based on year and event type.

PT. Indotech Media Indonesia, Jakarta

Dec 2020 – Dec 2025

Freelance Web Developer

- Built an HTML-based Owner Manual application for Toyota using CSS and Bootstrap frameworks.
- Correct sentence mistakes, messy layouts, and wrong images in the Owner Manual Toyota.

KLHK - Kementerian Lingkungan Hidup dan Kehutanan, Jakarta

Mar 2022 – Apr 2022

Freelance Web Developer

- Developed and maintained RESTful API endpoints for the SILVARIS system across 30+ modules
- Engineered robust CRUD functionality within application Controllers, managing institutional and demographic data integrity.
- Conducted thorough API testing and validation using Postman, ensuring all endpoints met operational requirements.

EDUCATION

Tiga Serangkai University, Surakarta

Apr 2021 – Dec 2025

Bachelor of Informatics

GPA 3.67 of 4.00

Thesis: Design and Development of a Simple Movie Recommendation System Based on Genre Using the Content-Based Filtering Method.
